RUSSIA'S ARDOR COOLING.

A Growing Sentiment of Antipathy
Against France.

Berlin, Sept. 29.—Reliable reports from St. Petersburg have reached here of a growing sentiment of antipathy against France. The Czar, out of respect toward his father, has felt obliged to maintain relations of friendship to the French republic and its president. He would have liked to show a more reserved front, but feared that his contract might be misconstrued in Russia. The Czar has, however, felt compelled to explain to Kaiser Wilhelm every step in his dealings with France, and recent developments in the Dreyfus affair furnish him with a pretext to discon-
sider his uncomfortable entente with a nation whose politics are morally rotten and whose military has assumed an autocracy outstepping his own.

MILES AND LITTLE STONEWALL.

He Grets the 12-Year-Old Grand-
son of the Famous Confed-
erate General Jackson.

Washington, Sept. 29.—There was an incident full of sentiment in the war department yesterday when Master T. T. Jackson Christian, grandson of Stonewall Jackson, called on General Miles. The bright 12-year-old lad, who said to greatly resemble his grandfather, was presented to the commanding general of the United States army by a brother of Ensign Bagley. General Miles rose, towered above the lad, and said:

"My boy, I am glad to meet you. Although I fought against your grandfather, I have always honored him as a brave soldier."

Druggists will say they sell more Plantation Chill Cure than all others.

PROMINENT VISITOR.

er of the house of representatives of
Tennessee, arrived in the city this
morning, and is a guest of his friend,
Dr. I. B. Howell.

Cure, as it is guaranteed to cure.

THE LATEST ARROGANCE.

It May be Necessary to Create
Another Office in the
Cabinet.

Washington, Sept. 29.—A new cabinet office is likely to grow out of the enlarged foreign policy of the United States. President McKinley will not formulate the organization of the new department until the peace commission has determined the final disposition of the Philippines, but it is probable he will recommend the creation of a minister of foreign colonies, in accordance with the practice of leading European governments having foreign dependencies.

There has been an agitation before Congress for some years in favor of a department of commerce, and it may be found possible to combine the functions expected of such a department with those of the new colonial office.

Even without these functions, how-
ever, there will be sufficient work for
a considerable department if the United States becomes governor not only of Porto Rico and the Hawaiian Islands, but of Cuba, the Philippines, and the Ladrones. It will be necessary to establish several important bureaus in the new department dealing with various branches of colonial administration. The separation of the colonial service from the home government of the United States is more distinct and necessary in the case of the ordinary civil administra-
tion.

If Mr. Erler's estimates are not

signed at the proper time, he will be
prevented from collecting any money from Wilcox & Halloran, the sub-
contractors with which to continue the
work. The city pays no esti-
mates on these sewers, and the money has to be provided by the sub-contractors.

The city engineer without doubt
has the authority to make such an
unjust and impracticable order as the one served on Supt. Erler, but it is
very uncalled for, especially at this time, and indicates a very domineering
disposition.

The council is beginning to see
what sort of an engineer it has fur-
nished the city, but it is likely that
nothing will be done until next Decem-
ber, when another engineer will be
elected. There are four or five
members of the council who likely
would not admit that the city engi-
neer is not competent if it should be
proved to them, and the city engineer
goes about and does as he pleases,
and does not evince the slightest de-
sire to resign. Hence there is no
way to get rid of him, as it requires
votes to discharge.

As one of the officials of the city
today stated, the sewerage is decidedly
the most important piece of work the
city has tackled in many years,

and the engineer has almost absolute
authority in all matters pertaining to it.

He would have wrecked the sys-
tem already, it is alleged, if it had
not been for Mr. Lyon, his assistant,

who knows something about sewer-
age, and because of whose superior
ability and influence with the proper
authorities, incurred the enmity of the
city engineer, and precipitated recent
difficulties which came near losing
him, the assistant, his place.

**STARVATION CARRIED OFF 10,066 Peo-
ple From January, 1897,
to September, 1898.**

Washington, Sept. 29.—The ar-
rival of the steamer Comal with re-
lief supplies at Matanzas—the second
city in Cuba—has disclosed the star-
vation conditions existing there. Twenty-five thousand reconcentrados
were huddled into the town, under
Weyler's orders, to die of starva-
tion. There was absolutely no relief.

today stated, the sewerage is decidedly
the most important piece of work the
city has tackled in many years,

A RINGING PLATFORM.

The republican party of New York state has set the country a most excellent example and one that the republicans of Kentucky might do well to follow. Absolute harmony ruled at their convention this week, and it was not the harmony brought about by an all powerful machine, but that coming from an almost unanimous wish of the republicans of the state.

In nominating Col. Roosevelt for governor they have selected a man of

unimpeachable honesty, of undoubtedly courage and ability, a man who is known to be the tool of no machine or boss and who is furthermore the hero of the hour in his own state.

The platform echoes the enthusiasm of the convention and is a splendid statement of the position of the republican party. It is in part as follows:

"The republicans of New York, in convention assembled, congratulate the country upon the conclusion of the war with Spain. It was not undertaken for conquest, but for the sacred cause of humanity and for the just protection of American interests.

It has resulted in the complete triumph of the American army on land and sea, and we meet with resolute faith all the responsibilities which our victories impose.

"We congratulate the country upon the patriotic wisdom, the patient courage and broad humanity which distinguished the conduct of President McKinley during the critical periods of diplomatic negotiation and battle, and which now guide him in the restoration of peace. Citizens of every state and every party fought and won under his command. All

Two at least of our great national business interests are in a state of transition to a certain extent, or, in other words, are undergoing a change of base. The cotton interests of the east are looking to the south. Hardly a day passes but what some large New England concern announces its intention either of moving south or of establishing a branch plant in the south. To such concerns, Paducah

offers splendid advantages, and in many respects advantages that are unequalled. It needs but an acquaintance with our points of excellence, to turn the attention of many a cotton manufacturer to this city.

The wood working industries are in many instances seeking new localities, on account of the exhaustion of timber, or because of the close competition which makes it necessary that a location must be secured as near both the raw material and the desired market as possible. In this line also Paducah offers many most desirable advantages.

What is true in particular of these two lines of manufacturing interests, is true in a general way of many other lines of manufacturing interests.

Low freight rates, the nearness of a large market and cheap fuel are features that appeal strongly to any manufacturing interest.

"We cannot turn these islands back to Spain. We cannot leave them, unarmed for defense and untried in statecraft to the horrors of domestic strife or to partition among European powers. We have assumed the responsibilities of victory and wherever our flag has gone there is liberty, the humanity and civilization which that flag embodies and represents must remain and abide forever.

The republican party has been the party to brave conservatism, of progress and of triumphant faith in the nationality of this people, and we know that the President and statesmen and voters of the republican party will meet these issues of the future as bravely and triumphantly as we have met the issues of the past.

"We are ready to meet the democrats on all state issues, but in a larger sense this campaign is a national campaign, and our people can not escape its national consequence. The election of republican members of congress and of a republican state legislature will mean that New York shall stand for the maintenance of the gold standard, and for such a revision of the currency laws as will guarantee to the labor of the country that every paper promise to pay a dollar, issued under the authority of the United States, shall be of absolute and equal value with a gold dollar, always and everywhere. The republican party is fulfilling the pledges we made at St. Louis.

PRESS SCHOTTA BETTER.

He is Not Entirely Out of Danger, However.

Press Schotta, who was shot a couple of weeks ago, is today reported as better. He is not quite so well as he was a few days back, however, owing to exposure, and yesterday was hardly able to breathe out of the injured lung.

Today he is able to be out, but his condition may yet become dangerous as it is possible that some of the shirt may have been carried into the lung by the bullet.

Rev. John C. Wilson has returned from a visit to Fulton, Clinton and other places down the road.

Mr. W. A. Burk, of Dyersburg, is in the city today. He is one of the most prominent liverymen in Dyersburg.

Mr. S. C. Vaughan, who has been in the upper part of the state in the interest of the A. O. U. W., is again at home.

Miss Mayme Bayham left today for home at Pantatuk, Miss., after a visit to Mr. John W. Baker and family.

Mr. E. Rehkopf, who went to Cincinnati for treatment, is greatly improved, her many friends will be happy to learn.

Mr. and Mrs. Geo J. Derby, of Pueblo, Colorado, are the guests of Mrs. Derby's father, Capt. J. H. Burkholder, of the county.

Mrs. Lutie Pate, of Newbern, Tenn., and Mrs. A. Hamilton, of Central City, are the guests of Mrs. H. Reep, of 440 South Sixth street.

Dr. J. V. Voris, who has been in Porto Rico with the Indiana volunteers, will arrive in about two weeks on a visit to his uncle, Dr. C. E. Whitesides.

Dr. J. C. Alcock left yesterday for Troy, Tenn., in response to a telegram to attend the bedside of Mrs. Alcock, his mother, who was reported as dying.

Master Lorenzo Emery, the nine-year-old son of Mr. Chas. Emery, entertained his little friends at his home, on the corner of Eleventh and Monroe streets, yesterday in honor of his birthday.

Mrs. Harry Wallace and baby and sister, Miss Jincie Smith, who have been spending the summer in Clarksville, returned home yesterday. They were accompanied by their sister, Mrs. Mattie Smith, and baby, Mary.

The social session of the Elks given last night in honor of Mr. Harry Ward and the members of Barlow Bros. Minstrels, was one of the largest attended in the history of the Elks, and was very enjoyable. Mr. Ward presided and the entertainment furnished by the members of the troupe and local talent was unusually good. Light refreshments were served, and everybody had a pleasant evening.

NEWLY MARRIED COUPLE.

Take Their Honeymoon on the Installment Plan.

The employees in a LaSalle street banking concern have become the daily witnesses of a pretty love episode.

Every day just a few minutes before 12 o'clock a handsome and neatly dressed young woman appears on the opposite corner and waits.

Her arrival is so well timed that always within three minutes the man comes bolting out of the big office building directly across the way and hurries to meet her.

She meets him with outstretched hands, and they come from across the street and walk toward the lake.

Sometimes they have a sly willingness to hold hands as they start away to their luncheon.

A half hour later, almost to the minute, they reappear, still beaming with the satisfaction of each other's company.

She accompanies him to the main entrance of the big office building where he is employed.

There they loiter for a few moments, evidently dwelling on sad good-bys, and he puts one arm around her and draws her up to him and imprint a warm and lingering kiss.

At this climax of the daily episode the clerks in the bank are lined up at the windows, and they watch the kiss with immense satisfaction and a concerted "Ah-h-h-h-h!"

The young man never hesitates because people are looking. The young woman doesn't mind. The employee of the bank do not object.

It has been agreed among the daily spectators that the two have been married lately and that both are employed downtown and must take their honeymoon on the installment plan—a half hour of it every noon.—Chicago Record.
